

## Building European Nuclear Competence

- You are managing

- > competence development of your personnel
- > vocational training to upskill or reskill professionals

- You want to

- > share knowledge and experiences on vocational training in nuclear domains

- Get connected with other people through

- > Nuclear Vocational Education and Training Community

**NUCLEATION**

NUclear VoCational Education  
And Training COmmuNity

Funded by  
the European Union

**NUCLEATION** is a community of practice for individuals passionate about vocational training within various nuclear disciplines: to actively gather and share among its members vocational training expertise, experiences, and challenges in open and trustful contributions and discussions, either through direct member contacts or preferably through live meetings.

**NUCLEATION** will disseminate its activities and accomplishments through two primary channels:

- a dedicated website (to be published later)
- LinkedIn NUCLEATION group postings.

**NUCLEATION** operates as a community without a formal organizational structure. Members will connect through

- contact data collected at the NUCLEATION hub and shared exclusively among the members,
- the LinkedIn NUCLEATION group.

To join NUCLEATION, contact

**Christian Schönfelder**

christian@schoenfelder.training  
(hub manager)

or the **ENEN office**

secretariat@enen.eu

<https://www.enen2plus.eu>

NUCLEATION is supported by the ENEN2plus project, which runs from 2022 to 2026, more than 50 international organizations are involved, coordinated by ENEN (the European Nuclear Education Network, see [www.enen.eu](http://www.enen.eu)).

Funded by  
the European Union
